Sir:

This is a Petition to revive a national application in the United States as designated in international patent Application No. PCT/GB00/01233. This latter application claims priority from an earlier application filed in Great Britain on April 1, 1999. Accordingly, filing of the national application claiming the foreign filing dates was required to be filed no later than October 1, 2000 (the 30-month deadline).

Applicant did enter Chapter II proceedings in a timely manner, but unintentionally failed to file the U.S. national application within the 30-month deadline from the earliest priority date.

The entire period of abandonment through the date of this reply was unintentional. No terminal disclaimer is required.
